

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name: Furnace Road Evidence Search	2. Operational Period: Date From: 04/09/2011 Date To: 04/09/2011 Time From: 08:00 Time To: 15:00
--	--

3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:

Obtain information regarding your mission. Receive a good briefing.

Scout the work area and surrounding areas

Identify hazards (likely to result in negative impacts)

Consider all aspects of current and future situations

Keep hydrated; drink enough water. If drinking Gatorade or similar products use a 2:1 ratio (2 quarts water to 1 quart of Gatorade). Officers should bring a meal with them and snacks that are small enough to fit into a cargo pocket

Maintain communications with adjoining teams, supervisors and crew. Test your communications, use human repeaters when necessary.

Officers will be working in and around train tracks. They will also be covering some overgrown vegetation. Officers should wear sturdy shoes that lace up past the ankle to provide support. While moving around the tracks there is a greater chance of ankle injuries due to loose rocks.

Traffic vests should be used when operating near the train tracks and **shall** wear them while working along the roadway for added visibility. CSX has been notified that officers will be near the tracks. As a result the trains will be operating at a slower speed in the area. Extra caution should be used near the tracks with possibly using a lookout to exclusively monitor the tracks.

Officers reaching in areas that are overgrown should be wearing eye and hand protection. Gators are also recommended to protect the legs.

Officers should bring tick and bug spray. A product containing DEET is recommended. Make a supervisor aware of tick bites.

Snakes, poisonous and non-poisonous, are known to the area. Look before walking or placing your hand into an area.

WEATHER:

Friday 04/08/2011, rain expected the night before. Saturday 04/09/2011, cloudy during the day with a chance of rain.
Temps: High 56°, Low 50°.

It is suggested that officers bring appropriate rain gear and layer clothing appropriately for the temperatures.

4. Site Safety Plan Required? Yes No X
