WORKSHOPS

When you plan your meeting or event at the Museum, you open a world of law enforcement possibilities, allowing you to create unique and captivating experiences. Keep your attendees and guests engaged with our Add-on options, which combine the excitement of the Museum with your event. Create moments your attendees will never forget! From customized workshops solving crimes, and scavenger hunts, to guided tours or private Museum access, we can accommodate your needs for school projects, team building or just to have fun.

FORENSIC PATHOLOGY

Learn the basics of Forensic Pathology and gain a greater understanding of the role it plays in our criminal justice system.

CSI CRASH COURSE

Step in the shoes of a real CSI (Crime Scene Investigator). Learn how to collect and label evidence from a crime scene and then test it in the forensic laboratory.

TRUE CRIME BREAKOUT SCAVENGER HUNT

In this series of scavenger hunts, explore the Museum's exhibits and artifacts and uncover clues that help to decipher the combinations to several locks, unveiling more information about the case until arriving at the verdict.

- The Kidnapping of Charles Lindergh, Jr.
- The People vs OJ Simpson, and
- The Beltway Sniper

DRIVING SIMULATORS

Sit in the Driver's Seat and Go on Patrol:

Experience the reality of an American law enforcement officer behind the wheel. You will view a specific set of scenarios to best illustrate the split-second decision-making required of law enforcement officers around the country and the weight of these quick decisions.

DECISION SIMULATOR

Step Into an Officer's Shoes:

A "walk in the shoes" experience of a law enforcement officer. You will interact with a use-of-force simulation based upon real situations officers face in the community to understand the weight of split-second decision making, and the intricacies of escalation and de-escalation of force practices.
